UNICEF (United Nations Children's Fund)

VISION/MISSION:

To create a world where the rights of every child are realized.

All children have a right to survive, thrive and fulfill their potential – to the benefit of a better world. To advocate for the protection of children's rights, to help meet their basic needs and to expand their opportunities to reach their full potential.

WORLD BANK

VISION/MISSION:

The World Bank Group is one of the world's largest sources of funding and knowledge for developing countries. Its five institutions share a commitment to reducing poverty, increasing shared prosperity, and promoting sustainable development.

To end extreme poverty: By reducing the share of the global population that lives in extreme poverty to 3 percent by 2030. To promote shared prosperity: By increasing the incomes of the poorest 40 percent of people in every country. The World Bank Group is one of the world's largest sources of funding and knowledge for developing countries. Its five institutions share a commitment to reducing poverty, increasing shared prosperity, and promoting sustainable development.

USAID (U.S. Agency for International Development)

VISION/MISSION:

On behalf of the American people, we promote and demonstrate democratic values abroad, and advance a free, peaceful, and prosperous world. In support of America's foreign policy, the U.S. Agency for International Development leads the U.S. Government's international development and disaster assistance through partnerships and investments that save lives, reduce poverty, strengthen democratic governance, and help people emerge from humanitarian crises and progress beyond assistance.

Our objective is to support partners to become self-reliant and capable of leading their own development journeys. We make progress toward this by reducing the reach of conflict, preventing the spread of pandemic disease, and counteracting the drivers of violence, instability, transnational crime and other security threats. We promote American prosperity through investments that expand markets for U.S. exports; create a level playing field for U.S. businesses; and support more stable, resilient, and democratic societies. We stand with people when disaster strikes or crisis emerges as the world leader in humanitarian assistance.

PARTNERS IN HEALTH

VISION/MISSION:

Our mission is to provide a preferential option for the poor in health care. By establishing long-term relationships with sister organizations based in settings of poverty, Partners In Health strives to achieve two overarching goals: to bring the benefits of modern medical science to those most in need of them and to serve as an antidote to despair.

We draw on the resources of the world's leading medical and academic institutions and on the lived experience of the world's poorest and sickest communities. At its root, our mission is both medical and moral. It is based on solidarity, rather than charity alone.

When our patients are ill and have no access to care, our team of health professionals, scholars, and activists will do whatever it takes to make them well—just as we would do if a member of our own families or we ourselves were ill.

PARTNERS IN HEALTH CAREERS:

MSF (Médecins Sans Frontières)

VISION/MISSION:

We seek to provide high-quality care and to act always in the best interest of patients; to respect their confidentiality, their right to make their own decisions and above all, to do them no harm. When medical assistance alone is not enough, we may provide shelter, water and sanitation, food or other services.

FIND (Find Diagnosis For All)

VISION/MISSION:

A world where diagnosis guides the way to health for all people. Turning complex diagnostic challenges into simple solutions to overcome diseases of poverty and transform lives.

FIND CAREERS:

<https://www.finddx.org/working-at-find/>

DNDi (Drugs for Neglected Diseases initiative)

VISION/MISSION:

To mobilize scientific innovation to create new medicines for the world's most neglected diseases and malaria. Our aim was to provide the structure to take the most promising projects ignored by commercial drug development through the pipeline, by capitalizing on existing capacity and expertise, particularly in affected countries.
